THE
OREGON
ORCHID
SOCIETY

If you're interested in orchids, or would like to be but think they're just too fussy, the Oregon Orchid Society (OOS) has some news for you! If you're a newcomer to these amazing plants, we can help you get started and be successful right at home. If you're a more-experienced grower, you can swap information with our members and find ways to take your orchid skills to the next level.

Whatever your growing conditions and experience, you'll fit right in with OOS members who learn and have fun in a friendly, welcoming atmosphere. We're one of the oldest orchid societies in the US and our members continue to enjoy fresh and fun orchid-related activities.
